Day 3 – Assignment C#.NET DateTime

1. Write a C# Sharp program to extract the Date property and display the DateTime value in the formatted output.

Expected Output:

Complete date: 6/8/2016 11:49:00 AM

Short Date: 6/8/2016

Display date using 24-hour clock format:

6/8/2016 12:00 AM

06/08/2016 00:00

2. Write a C# Sharp program to display the number of ticks that have elapsed since the beginning of the twenty-first century and to instantiate a TimeSpan object using the Ticks property.

Note: The TimeSpan object is then used to display the elapsed time using several other time intervals.

Expected Output:

English (Jamaica):

Local date and time: 20/08/2016 15:54:07, Local

UTC date and time: 20/08/2016 10:24:07, Utc

English (New Zealand):

Local date and time: 20/08/2016 3:54:07 PM, Local

UTC date and time: 20/08/2016 10:24:07 AM, Utc

suomi (Suomi):

Local date and time: 20.8.2016 15:54:07, Local

UTC date and time: 20.8.2016 10:24:07, Utc

Deutsch (Schweiz):

Local date and time: 20.08.2016 15:54:07, Local

UTC date and time: 20.08.2016 10:24:07, Utc

Nederlands (Nederland):

Local date and time: 20-8-2016 15:54:07, Local

UTC date and time: 20-8-2016 10:24:07, Utc

3. Write a program in C# Sharp to find the day on a particular date.

Test Data:

Input the Day : 16

Input the Month : 06

Input the Year : 2016

Expected Output :

The formatted Date is : 16/06/2016

The day for the date is : Thursday

Microsoft DotNet

4. Write a C# Sharp program to find the leap years between 1994 and 2014.

Note : Use IsLeapYear method.

Expected Output :

1996 is a leap year.
One year from 2/29/1996 is 2/28/1997.
2000 is a leap year.
One year from 2/29/2000 is 2/28/2001.
2004 is a leap year.
One year from 2/29/2004 is 2/28/2005.
.....

5. Write a C# Sharp program to convert the specified string representation of a date and time to its DateTime equivalent. This is done using the specified format, culture-specific format information, and style.

Expected Output :

05/06/2016 10:00 AM converted to 6/5/2016 10:00:00 AM Unspecified.
05/06/2016 10:00 AM converted to 6/5/2016 10:00:00 AM Local.
2016/05/06T10:00:00-5:00 converted to 5/6/2016 8:30:00 PM Local.
Unable to convert 05/06/2016T10:00:00-5:00 to a date and time.
2015-05-06 10:00 converted to 5/6/2015 4:30:00 AM Utc.
